PROFESSIONAL SUMMARY

UX and product design student at the University of Michigan with two years of hands-on UX work across agency, product, and freelance design. I've led a full website redesign end to end for a national contractor, designed enterprise brand assets at Ogilvy, and explored interface concepts for an early-stage health-tech app. My process spans research, prototyping, and design systems, and I'm comfortable collaborating directly with developers and cross-functional teams under deadline.

EDUCATION

University of Michigan | Bachelor of Arts in Design and UX Design 2023 - 2027

– *Minor Concentrations:* Product Design, Software Engineering, Graphic Design, and Industrial Design

– *Relevant Coursework:* Bits and Atoms, Product Design, Typography, Intro to UX

Study Abroad, Copenhagen, Denmark | Design and User Design Principle Courses January - June 2026

EXPERIENCE

Web Design & Development Intern Summer 2026

Premier Design + Build

- Designed wireframes, interactive prototypes, and a component-based design system for a national contractor's site (8 offices, 850+ projects), then partnered directly with development to ship it live
- Built a CMS-driven content platform (projects, blog, team) letting the marketing team manage content independently, consistent from a 390px phone to a 3300px monitor

Product Design Contractor (Unpaid) March 2026 – April 2026

Remira

- Explored interface concepts for a diabetes tracking application, prototyping screens in Figma and experimenting with AI-assisted design-to-code workflows (Claude, Codex)

Design Intern May 2025 – August 2025

Ogilvy

- Designed branded digital assets for 6+ enterprise clients (Bloomberg, CDW, UiPath), partnering with creative, copy, and account teams from concept to execution
- Presented design work directly to stakeholders and iterated quickly based on feedback under tight deadlines on live campaign launches

Selected Student Summer 2022

University of Michigan Stamps Summer Studio

- Completed an intensive studio program spanning Drawing, 2D, 3D, and 4D coursework, culminating in a portfolio reviewed by professional artists

Graphic Designer December 2022 – May 2023

Fearless Learning, LLC

- Designed brand and logo assets and managed marketing strategy for a private tutoring company, balancing creative direction with business goals

PROJECTS

MistMates | Product Designer January 2025 – Present

- Designed and prototyped a CAD-modeled squeeze bottle in Autodesk Fusion 360, iterating on ergonomics and usability across multiple versions
- Tested resin-fabricated prototypes for durability and user interaction, refining form based on hands-on feedback

SKILLS

Design Tools: Figma, Adobe Creative Suite, Miro, Autodesk Fusion 360

UX Process: Human-Centered Design, Wireframing, Prototyping, Design Systems, User Flows

Technical: JavaScript, HTML/CSS, Python, CMS Platforms (Wix Studio/Velo)

Soft Skills: Cross-functional Collaboration, Stakeholder Presentation, Adaptability

AWARDS & HONORS

- AP Scholar with Honor
- Illinois Congressional Art Competition: Exhibited Work
- Sigma Chi Peterson Chapter Award
- Evanston Art Center Volunteer: mentored students, supported exhibitions
